**GRAND HAVEN CHARTER TOWNSHIP BOARD
MONDAY, JANUARY 26, 2015**

WORKSESSION – 6:00 p.m.

1. The Board discussed the Pathway Extension Survey results and a schedule to allow the Township electors to vote on the project. The Board determined that it would support the 0.45 millage rate option and that it would tentatively schedule the ballot language to be placed on the November, 2016 Presidential election. However, the Board will review this decision in February/March of 2016 to affirm the selection of the election date.
2. The Board reviewed the applications from six (6) Township electors for the Township Board Trustee vacancy. Staff noted that three of the six did not follow the instructions from the Township Board as delineated in the public notice and did not include a cover letter and that one was received in the mail late (*i.e., Monday, January 26th*).

The Township Board determined that it would only consider the three (3) applicants that followed the instructions pursuant to the notice of vacancy (*i.e., Paula Bekins, David Gignac, and Ronald Redick*). Each member of the Board offered their preferred candidate based upon the information provided, with a majority offering support for candidate Ronald Redick.

Without objection, the Board instructed staff to amend the January 26th Board agenda and add the selection of a candidate to fill the Board Trustee vacancy.

3. Cargo provided the Manager's Report that included:
 - a. The December COPS report from the Sheriff's Department;
 - b. The December Public Services Report
 - c. The December Legal Review
 - d. Cargo provided correspondence and pictures from a group of local families that proposed a viewing/fishing platform and stairs to be located at the Millhouse Bayou bridge. This is adjacent to the location where a local teen recently drowned. **Without objection**, the Board instructed staff to gather additional information regarding the feasibility of the proposal.

SUPERINTENDENT'S MEMO

DATE: February 4, 2015
TO: Township Board
FROM: Cargo
SUBJECT: Summer Concert Series

The “*Sounds of Summer*” concert series held at Pottawattomie Park is planning to return to Pottawattomie Park this summer. As you recall, this series was a success with good crowds and neither the DPW nor the Sheriff’s deputies reporting any serious problems or difficulties. However, the program was cancelled in 2012 because the non-profit organization that sponsored the series was dissolved.

This year a different local, non-profit organization called “Walk the Beat” (WTB) will be sponsoring the concert series. However, the director of this new non-profit is Dave Palmer – the same individual that began the non-profit that sponsored the original “*Sounds of Summer*” concert series.

In brief, the concert series will run on eight (8) Wednesday evenings, beginning June 17, 2015 through August 5, 2015 from 7:00 p.m. until 8:30 p.m. To facilitate this program, GHT needs to approve a license agreement, which is substantially similar to the agreements approved for the previous “*Sounds of Summer*” concert series. (*See attached.*) GHT employee Kristi Walsh will be working closely with WTB to ensure that the provisions of the agreement are followed.

If the Board supports allowing the waterfront at Pottawattomie Park to again be used for the “*Sounds of Summer*” concert series during 2015, the following motion can be offered:

Move to authorize the Clerk and Supervisor to execute the proposed agreement authorizing Walk the Beat (WTB) Foundation to use Pottawattomie Park for the 2015 “*Sounds of Summer*” concert series.

If you have any questions or comments, please contact me at your convenience.

The rider naming the Township as an additional insured shall be submitted to the Township for review and approval before WTB uses the Park pursuant to this Agreement. The rider shall further provide that the Township's status as an additional named insured shall not be terminated without thirty (30) days advance written notice to the Township.
- J. WTB may not assign or in any manner transfer this Agreement to another party.
- K. WTB's use of the Park pursuant to this Agreement is not exclusive and shall not preclude persons from engaging in other legitimate and lawful use of the Park, even during the hours and evenings covered by this Agreement.
- L. Except as otherwise provided in this Agreement, WTB shall use the Park in compliance with all Township ordinances and all other applicable laws, rules, and regulations.

SUBJECT: Millhouse Court Water Main Loop

As you may recall, GHT budgeted **\$45,000** to complete a water main loop along Millhouse Court. There were six (6) responses to the bid request ... with the highest bid being \$61,920 and the lowest bid being \$32,115.50. (*See attached bid list.*)

The low bid was for **\$32,115.50** from Northern Pipeline Contractors, Inc. (NPC), which is \$12,484.50 or about 30% below the engineer's estimate.

The engineer on the project (*i.e., Kevin Kieft*) is recommending that this contract be awarded to NPC and staff notes that this firm has successfully completed many water projects within the Township. (*See attached letter.*)

If the Board agrees, the following motion can be offered:

Move to authorize the superintendent to execute a contract with Northern Pipeline Contractors, Inc. at a unit price contract estimated at \$32,115.50.

SUBJECT: Supervisor French's Planning Commission Appointment

Pursuant to Section 2.11 of the Administrative Policies and Procedures Manual, Supervisor French is recommending the appointment of David Gignac to the Planning Commission to complete the term of Ron Redick – through August of 2017.

Further, Gignac has and Masters of Business Administration (MBA) with a specialty in Human Resources and is currently as the Human Resources Manager for BuhlerPrince, Inc. (*i.e., an automotive parts manufacturer in Holland*).

If the Board supports this appointment, the following motion can be offered:

If you have any questions or comments prior to the meeting, please contact either Cargo or Supervisor French.

RE: Review of the 2015 – 2019 Community Parks and Recreation Plan

PURPOSE

The Michigan Department of Natural Resources (DNR) provides financial assistance through a variety of programs to acquire land and/or develop park facilities. To be eligible to apply for these grants, a community must have an approved, five-year recreation plan on file with the Grants Management office of the DNR. In addition, the plan provides direction for capital spending and improvements to the parks system outside of any grant considerations.

In order to collaborate and reduce future costs, the five communities in Northwest Ottawa County (*i.e., Grand Haven Township, Grand Haven City, Spring Lake Township, Spring Lake Village and City of Ferrysburg*) agreed to complete the five-year recreation plan as a group. Please review the attached plan.

After the public hearing a final draft will be developed, which will include several additions and amendments (*highlights of additions and amendments described below*).

STAFF REVIEW

Staff has reviewed the Draft 2015 – 2019 Community Parks and Recreation Plan in Northwest Ottawa County. Staff identified several deficiencies within the plan, which may impose an undue hardship on the Township’s ability to secure grant funding.

1. Map of the “Grand River Harbor Region” is missing key land preserves and parks, including Witeveen property.
2. “Recreation Inventory” does not include the Witeveen property or information on access to the Non-Motorized Pathway Systems that are near existing parks.

3. The “Other Recreation Facilities” identifies the North Ottawa Rod and Gun Club, but none of the other privately owned recreation facilities available in the Township, such as the Grand Haven Golf Club.
4. “Area Trail and Pathway Maps” does not include any information on the Township’s Non-Motorized Pathway System. The map must be updated to include all pathway segments, including the proposed segments.
5. Two goals should added:
 - a. Increase public awareness and knowledge of the recreational opportunities which exist for the Township residents and visitors.
 - b. Be a community that celebrates and promotes recreational tourism.
6. Additions to the “Action Plan” should include:
 - a. Stabilize retaining wall for the Non-Motorized Pathway segment on Lakeshore Dr.
 - b. Construct a memorial viewing platform under the Millhouse, and Pottawattomie, Bayou bridges.

RECOMMENDATION

Staff recommends the Township Board adopt Resolution No. 15-02-02. The Resolution will adopt the Northwest Ottawa County 2015 – 2019 Community Parks and Recreation Plan. If the Township Board agrees with the aforementioned recommendation, the following motion can be offered:

Motion by _____, supported by _____, to adopt Resolution No. 15-02-02 to adopt the Northwest Ottawa County 2015 – 2019 Community Parks and Recreation Plan.

REPORT

Pursuant to the provisions of the Grand Haven Charter Township (the “Township”) Zoning Ordinance (the “Zoning Ordinance”), the following report of the Grand Haven Charter Township Planning Commission (the “Planning Commission”) and Grand Haven Charter Township Board (the “Township Board”) concerning an application by Jake Hogeboom (the “Developer”) for approval of a Copper Stone Site Condominium Planned Unit Development (the “Project” or the “PUD”) and rezoning of parcels 70-07-12-300-033 and 70-07-12-300-036 from R-2 Single Family Residential to Planned Unit Development. The Project was approved by the Planning Commission at a hearing held on January 5, 2015.

The Project will consist of a medium density single-family residential development comprised of 74 dwelling units and qualifying open space for a total development area of about 59.73 acres. Phase 1 of the PUD shall include 45 lots. The Project as recommended for approval is shown on a final site plan, last revised 12/18/2014 (the “Final Site Plan”), presently on file with the Township.

The purpose of this report is to state the recommendation of the Planning Commission concerning the Project, the basis for the Planning Commission's recommendation, and the Planning Commission's recommendation that the Copper Stone Site Condominium PUD and application to rezone Project parcels 70-03-33-200-030 from R-2 to PUD be approved as outlined in the above motion. The Developer shall comply with all of the documentation submitted to the Township for this Project. In recommending the approval of the proposed PUD and rezoning applications, the Township Board and Planning Commission make the following findings pursuant to Section 17.04.3 of the Zoning Ordinance:

1. The Project meets the site plan review standards of Section 23.06 of the Zoning Ordinance. Specifically, pursuant to Section 23.06.7, the Planning Commission finds as follows:
 - A. The uses proposed will not adversely affect the public health, safety, or welfare. Uses and structures located on the site take into account topography, size of the property, the uses on adjoining property and the relationship and size of buildings to the site.
 - B. The site will be developed so as not to impede the normal and orderly development or improvement of surrounding property for uses permitted in this ordinance.
 - C. Safe, convenient, uncontested, and well defined vehicular and pedestrian circulation is provided for ingress/egress points and within the site. Drives, streets and other circulation routes are designed to promote safe and efficient traffic operations within the site and at ingress/egress points.
 - D. The arrangement of public or private vehicular and pedestrian connections to existing or planned streets in the area are planned to provide a safe and efficient circulation system for traffic within the township.
 - E. Removal or alterations of significant natural features are restricted to those areas which are reasonably necessary to develop the site in accordance with the requirements of this Ordinance. The Planning Commission has required that landscaping, buffers, and/or greenbelts be preserved and/or provided to ensure that proposed uses will be adequately buffered from one another and from surrounding public and private property.
 - F. Areas of natural drainage such as swales, wetlands, ponds, or swamps are protected and preserved insofar as practical in their natural state to provide areas for natural habitat, preserve drainage patterns and maintain the natural characteristics of the land.
 - G. The site plan provides reasonable visual and sound privacy for all dwelling units located therein and adjacent thereto. Landscaping shall be used, as appropriate, to accomplish these purposes.
 - H. All buildings and groups of buildings are arranged so as to permit necessary emergency vehicle access as requested by the fire department.

- I. All streets and driveways are developed in accordance with the Ottawa County Road Commission specifications, as appropriate.
 - J. Appropriate measures have been taken to ensure that removal of surface waters will not adversely affect neighboring properties or the public storm drainage system. Provisions have been made to accommodate storm water, prevent erosion and the formation of dust.
 - K. Exterior lighting is arranged so that it is deflected away from adjacent properties and so it does not interfere with the vision of motorists along adjacent streets, and consists of sharp cut-off fixtures.
 - L. All loading and unloading areas and outside storage areas, including areas for the storage of trash, which face or are visible from residential districts or public streets, are screened.
 - M. Entrances and exits are provided at appropriate locations so as to maximize the convenience and safety for persons entering or leaving the site.
 - N. The site plans conforms to all applicable requirements of County, State, Federal, and Township statutes and ordinances.
 - O. The general purposes and spirit of this Ordinance and the Master Plan of the Township are maintained.
2. The Planning Commission finds the Project meets the intent for a PUD, as described in Section 17.01.3 of the Zoning Ordinance. By approving this Project as a PUD, the Township has been able to negotiate various amenities and design characteristics as well as additional restrictions with the Developer, which the Township would not have been able to negotiate if the PUD Chapter of the Zoning Ordinance was not used.
 3. Compared to what could have been constructed by right, the Project has been designed to accomplish the following objectives from Section 17.01.4 of the Zoning Ordinance:
 - A. The Project will encourage the use of land in accordance with its natural character and adaptability;
 - B. The Project will promote the conservation of natural features and resources through the preservation of required open space;
 - C. The Project will promote innovation in land use planning and development;
 - D. The Project will promote the enhancement of housing and traffic circulation for the residents of the Township;
 - E. The Project will promote greater compatibility of design and better use between neighboring properties;
 - F. The Project will promote more economical and efficient use of the land while providing harmonious variety of housing choices; and
 - G. The Project will promote the preservation of open space.

4. The Project meets the following qualification requirements of Section 17.02 of the Zoning Ordinance:
 - A. The Project meets the minimum size of five (5) acres of contiguous land.
 - B. The Project exhibits significant natural features encompassing more than 25% of the land area, which will be preserved as a result of the PUD plan.
 - C. The PUD design substantially moves forward the Intent and Objectives of Section 17.01 of the Zoning Ordinance.
5. The Planning Commission also finds the Project complies with the general PUD Design Considerations of Section 17.05 of the Zoning Ordinance:
 - A. The storm water management system for the Project and the drainage facilities will properly accommodate storm water on the site, will prevent run off to adjacent properties, and are consistent with the Township's groundwater protection strategies.
 - B. The Project will not interfere with or unduly burden the water supply facilities, the sewage collection and disposal systems, or other public services such as school facilities, park and recreation facilities, etc.
 - C. Utility services within the Project shall be underground. This includes but is not limited to electricity, gas lines, telephone, cable television, public water and sanitary sewer.
 - D. The internal road system in the Project is designed to limit destruction of existing natural vegetation and to decrease the possibility of erosion.
 - E. Vehicular circulation, traffic and parking areas have been planned and located to minimize effects on occupants and users of the Project and to minimize hazards to adjacent properties and roadways.
 - F. Parking requirements for each use have been determined to be in accordance with Chapter 24 (Parking, Loading Space, and Signs).
 - G. Street lighting will be installed in the same manner as required under the Township's Subdivision Control Ordinance.
 - H. Buildings in the Project have been sited to protect natural resources. Natural features such as natural grade, trees, vegetation, water bodies and others have been incorporated into the Final Site Plan.
 - I. The predominant building materials have been found to be those characteristic of Grand Haven Charter Township such as brick, wood, native stone and tinted/textured concrete masonry units and/or glass products.
 - J. Landscaping, natural features, open space and other site amenities have been located in the Project to be convenient for occupants of, and visitors to, the PUD.
 - K. The Project is reasonably compatible with the natural environment of the site and the adjacent premises.

- L. The Project will not unduly interfere with the provision of adequate light or air, nor will it overcrowd land or cause an unreasonably severe concentration of population.
- M. Exterior lighting within the Project complies with Chapter 20A for an LZ2 zone.
- N. The Project will not have a substantially detrimental effect upon or substantially impair the value of neighborhood property, as long as all of the standards and conditions of this approval of the Project are satisfied.
- O. The Project is in compliance with all applicable Federal, State, County, and local laws and regulations. Any other permits for development that may be required by other agencies shall be available to the Township Board before construction is commenced.
- P. The Project provides adequate accessibility for a single family residential development with more than 24 dwelling units (*i.e., more than one separate access*).
- Q. The driveways providing access to corner lots shall gain access from the lesser traveled of the two intersecting streets.
- R. The Project satisfies the minimum open space of 25 percent required by the Zoning Ordinance.
- S. The open space in the Project is large enough and properly dimensioned to contribute to the purpose and objectives of the PUD.
- T. The open space in the Project consists of contiguous land area which is restricted to non-development uses.
- U. The open space shall remain under common ownership or control.
- V. The open space shall be set aside by a means of conveyance approved by the Township Board, which conveyance satisfies the requirements of Section 17.05.5.G of the Zoning Ordinance.
- W. The Project does abut a single family residential district. The two developments consist of a natural feature transition consisting of woodlands and a ravine.
- X. The Project is consistent with the goals and objectives of the Master Land Use Plan. Specifically, it is consistent with the Master Plan designation of the property in question.

Subject: Hidden Creek Sanitary Swer Lift Station Pumps
Attachments: Q 60288 Hidden Creek GHCT.pdf

To All:

Please see the attached quote regarding two replacement pumps for the Hidden Creek sanitary sewer lift station at a cost of **\$15,745**.

Pursuant to Administrative Policy 5.11a, I am informing you of my decision to waive the written quotation procedures that would require three quotes. Kennedy Industries is the only vendor in West Michigan that supplies the Flygt pumps that will be installed in this station. Further, quotes to re-build the existing pumps are more costly than purchasing "new" ... and these new pumps are more energy efficient. Also, please note that the rehabilitation of this lift station is a budgeted item for FY 2015.

In addition, by purchasing the pumps directly from the manufacturer (*as opposed to including this is the bid to refurbish this lift station*), the township is avoiding additional engineering fees from Prein and Newhof and the selected contractor's mark-up for the material. And, finally, I would note that this is the same process and procedure that the Township utilized when rehabilitating the East Ferris Street sanitary sewer lift station.

Further, pursuant to Section 14 of the FY 2015 Budget Resolution, because the purchase of these two pumps will exceed \$15,000, I am informing you of this capital purchase. If the Board does not object to this budgeted item prior to the end of the February 9th Board meeting, I will authorize VerBerkmoes to complete the purchase order.

Please contact either me if you have any questions or comments.

Warm Regards,

Bill
